

All you need is one.

Introducing NEW CANPEX™ UV Plus.

The first single layer PEX pipe with the effectiveness of a multi-layer pipe.

- Maximum protection against UV radiation
- 100% continuous hot water recirculation up to 140°F
- Includes metal deactivation additive to protect against polymer degradation
- Smart colour coding in sizes ranging from 3/8" to 2": the black layer is now obsolete!

Vanguard Pipe & Fittings Ltd. is pleased to announce our latest product innovation - the first single layer UV resistant PEX pipe with a class leading PEX 5306 certification. CANPEX™ UV Plus' advanced formulation ensures that when the product is exposed to UV radiation, it will retain both its physical properties as well as its long term Chlorine/ORP resistance at the highest level in the industry today.

Most manufacturers have met only the minimum chlorine resistance requirement. CANPEX UV Plus goes the distance with its UV protection, chlorine resistance, metal deactivation and lead-free formulation with all of the same features installers look for in PEX tubing.

Translation:

you don't need a black layer to ensure UV and chlorine protection.

NSF-pw

NSF International Performance and Health Effects (Standards 14 & 61)

ULC/UL S101/UL263 Listed for Fire Resistant & Firestop Products & Systems

NSF certified to CSA B137.5 & PEX 5306

IAPMO Certified

Warnock Hersey Certified to ULC S102

ANNEX G Lead-free

Standards met by CANPEX UV Plus:

- Hydrostatic Temperature and Pressure rating: 160 psi @ 73°F and 100 psi @ 180°F

Manufacturing Standards met:

- ASTM F876
- ASTM F877
- ASTM F2023
- ASTM F2657
- ANSI/NSF Standard 14
- ANSI/NSF Standard 61
- CSA B137.5

Accessories

- CANPEX UV Plus is complemented with a proven, reliable crimping system for standard or lead-free brass insert fittings or our fully-engineered Poly-Alloy insert fittings.
- A complete line of tools and accessories for the most demanding pex installation applications. Our North American made PEX crimp insert tools come complete with a Go/No Go Gauge and detailed instructions on use and care.
