

WHITE INSULATED ACR TUBING COILS

SEAMLESS PIPE TUBE FOR HVAC & R

Features & Benefits

- Works with air conditioning and refrigeration applications, including ductless mini-split, heat pump, and centralized air ducted units
- Insulated high quality copper tubing
- Outer jacket protects foam insulation from tearing during installation
- UV protective insulation provides added protection against sun damage, weather erosion, or damage from animals and insects
- Outer jacket is incrementally marked every foot to ensure accurate initial unit charge and reduce waste
- Available in white, outer jacket may be painted to match surroundings

Tubing & Insulation Specifications

- Copper: ASTM B280 - C12200
- Insulation: LDPE closed cell foam
 - ASTM E84 25/50 Flame & Smoke Class A
 - R Value rating of insulation - 3.2
 - UV resistant
 - Wall thickness 1/2"
- Temperature rating: -40°C to 110°C (-40°F to 230°F)
- Coil length: 50ft.

Part #	Description
260004050	1/4" Copper X 1/2" PE White Insulation
260204050	3/8" Copper X 1/2" PE White Insulation
260404050	1/2" Copper X 1/2" PE White Insulation
260504050	5/8" Copper X 1/2" PE White Insulation
260604050	3/4" Copper X 1/2" PE White Insulation
260704050	7/8" Copper X 1/2" PE White Insulation
