

## ALPHA & OMEGA CLAMPS

PIPE & TUBING SUPPORT, BUILT FOR STRENGTH AND LONGEVITY

ALPHA CLAMPS

OMEGA CLAMPS

### Features & Benefits

Designed to support any CTS (copper tube size) pipe and tubing, including PEX, PE-RT, copper, CPVC, and other CTS pipe styles, these clamps provide a complete support system focused on strength, protection, and long-term performance. Alpha and Omega Clamps both deliver secure pipe retention with reliable structural support and adaptability.

- Reduced pipe wear & movement
- Improved system stability
- Faster installation time
- Long-term reliability in demanding environments

### ALPHA CLAMPS

- Provides structural stability for piping runs
- Enables easy system extension and adjustment
- Ideal for retrofit and new construction
- Supports multiple pipe sizes and layouts
- Durable construction for long-term reliability

### OMEGA CLAMPS

- 360° pipe support reduces stress points
- Helps minimize vibration and movement
- Non-conductive, corrosion-resistant
- Clean, fast installation
- Compatible with a variety of domestic piping materials

**Material:** High Impact Polypropylene

### Load Capacity Ratings:

- 1/2" Alpha Clamp: 18 lb
- 3/4" Alpha Clamp: 20 lb
- 1" Alpha Clamp: 22 lb
- 1/2" Omega Clamp: 22 lb
- 3/4" Omega Clamp: 28 lb
- 1" Omega Clamp: 32 lb
