

J-CLAMPS WITH NAILS

PIPE & TUBING SUPPORT

Available sizes: 3/8", 1/2", 3/4", & 1"

Features & Benefits

Designed for use with all CTS (Copper Tube Size) pipe and tubing, including PEX, PE-RT, copper, and CPVC, these J-clamps with nails deliver secure support, pipe protection, and long-lasting performance.

- **Secure Pipe Support**
Provides strong, dependable support for CTS piping systems to help keep pipe runs aligned and secure.
- **Fast & Easy Installation**
Integrated nail design allows for quick mounting to wood studs and joists, helping reduce installation time.
- **Compatible with Multiple Pipe Types**
Designed for use with CTS (Copper Tube Size) piping, including PEX, PE-RT, CPVC, and copper tubing.
- **Helps Protect Piping**
Smooth clamp design helps minimize pipe movement, abrasion, and wear over time.
- **Durable Long-Term Performance**
Built for reliable performance in residential and commercial plumbing applications.
